Old Copy of Freeman Found by Rural Reader

Shokan, March 19.—A Shokan man, while rummaging among some old papers recently, discovered a Daily Freeman of the issue of Monday evening, December 7, 1855. The paper, though yellowed and rather brittle from age, remains in a fair state of preservation, and its owner, hence a reader of The Freeman since boyhood, values the relic very highly.

Four of the seven columns of the old paper's front page are devoted to telegraph news and other three columns are given over to advertising matter. Outside news includes an account of the deaths of four men engaged in construction work on the new Clinton Aqueduct, a movement of federal troops to Salt Lake City, here a Mormon riot was in progress, the convening of Congress and naming of John Sherman as president pro tem of the Senate and John C. Calhoun as speaker of the House, together with columns of the Times, Liberator and Parnellites in Ireland. In the News Comments, mention is made of Gen. George H. Sharpe's speech before the Senate committee on Albany, the impending removal of supreme court chambers from the Kingston city hall to the court house, the raising by a Democratic board of supervisors of J. Newton Fiero's compensation as counsel of the board, and the recent declaration of Samuel J. Tilden in favor of a development system capable of "supplying all of our national wants."

Front Page Advertisers. Front page advertisers include: Humphrey, Crosby & Enright, dry goods; Union Union and Ferry street, George B. Merritt & Co., 161 Strand and uptown at one door north of St. John's Church on Wall street; S. E. Brundage, carpenter and builder, Ten Brook and Foxhall avenues; S. L. Drake, stationery, 29 Wall; the new Kingston steam laundry, managed by Isaac Hood; M. Neuwitter, dry goods, at 16 Union avenue; Spore & Eltinge, crockery, Wall and North Front streets; Crosby, Sahler & Co., uptown and downtown merchants dealing in horse blankets, harness, guns, sleigh bells, skates and whatnot, and Wells cash store at 25 Union, Kennedy Row. Also Hasbrouck & Alliger, dealers in shoes, boots and leather findings, who make special mention of their calfskin boots for men.

Subscription: \$4. From the mast head of the old paper it is learned that the subscription price of The Freeman, by carrier or post, was eight dollars per year. The weather indications from Washington are followed by two lengthy editorials which are followed, in turn, by five and one-half columns of advertisements. There is an ad. of the Grand Union Hotel in New York—"conveniently reached by horsecars, stages and elevated." Dr. David Kennedy uses an entire column in selling forth the merits of his Cherry Balsam, Golden Drops and Favorite Remedy; Pitt's Bazaar, 39 North Front street, advertises an immense stock of holiday gifts, while E. Winter, Music Hall, calls attention to his pianos, organs, accordions, sheet music and stationery. City Treasurer Grove Webster, with offices in Crosby's store, Union avenue and Strand, calls for payment of assessments on Van Buren street grading and that of Prince street between Union and Foxhall, together with a levy on a sewer from Union avenue to Prince and Grand streets.

Other advertisements include: George C. Preston and John McCausland, real estate and insurance, Cornhill Building; Cluett & Sons, pianos, Albany; Oriental Brewery, Philip Hoffman, 46 Hone street; Michael Dippold, agent, "The Polyopticon," latest kind of magic lantern; John M. May, sleighs, Mill street; Wachmeyer's furniture, 173 Strand; J. H. Hickok, Poughkeepsie, piano store, represented by G. A. Vossler; Book binding, Kenyon & Carle of the Sampson Building, Rondout, and Wadsworth stationery store at 21 Union avenue. Then, there is Sleigh's furniture warehouses at 17-19 North Front; H. R. Wieber's stove emporium at 26 Union; George Hauck brewery at Wurts and Holmes streets, together with several New York city firms.

Practically all of the first three columns of the third page is given to patent medicine advertisements, many of these ads

to mankind being handled by Cooper & Watson, whose drug store was located next door to the Kingston post office. The Bedford employment agency was conducted at 11 Boscawen street, Kingston; the new iron steamer, City of Kingston (Capt. W. S. Van Keuren) and the James W. Baldwin (Capt. J. H. Tremper) were alternating on the night run between Rondout and New York; the steam yacht Eltinge Anderson and Little Wright operated on regular schedule between Wilbur and Rondout; the yacht John McCausland (Capt. John F. Voigt) plied between Rondout and Saugerties, while the yacht Annie made frequent trips to and from Ulster Landing.

City Directory. The "City Directory" includes cards of Everett & Treadwell, Buhan & Pelton's coal & lumber yard; Clinton avenue and Main; John T. Bond Jr., the jeweler at Strand; A. S. Staples, wholesale food and groceries, at Hasbrouck and the Strand; Albert Mauterstock, carpenter and builder, 89-91 Union avenue, Edward O'Reilly, groceries, and Dr. Townsend Jones, Fair street physician. Advertisements also of James L. Philney, Twaitskill Feed Mills, Wilbur, John E. Kraft, insurance and real estate, 41 Wall street; H. S. Terwilliger, undertaker, at 40 Union avenue; J. H. Cadby & Sons, estate organs, at 25 N. Front, and J. S. Paynter's harness emporium. Still another ad. announces closing out sale of the stoves, etc., stock of the late Peter Donnelly, at 14 Ferry street. Seven railroads, as well as the ferryboat Transport, ran their schedules on this page.

The Freeman of 52 years ago reserved its fourth and last page for the bulk of its news reading matter. First comes a column of news notes, graduated in length from one line at the top to 12 lines at the bottom. It has been a trying day for the car drivers (cold). . . . Chicken thieves are operating in "middle town". . . . Quite a number of our people have purchased land in Florida. . . . Rabbits are exposed for sale in the butcher shops. . . . "Mikado" is given. A series of readings, with readings, lectures, and so forth at Music Hall, the price for the course being \$1.50. . . . Also those who would like to take Saturday lessons of Signor Giuseppe Tamara, a leading metropolitan vocal teacher, can leave their addresses with Howard Osterhout or William H. Reiser.

"Genuine Dutchman." Under the caption, "Genuine Dutchman," the old Freeman gives an account of the will of John M. Myer, a well-to-do town of Hurley resident who had died at the age of 84 years. Mr. Myer was fond of displaying old Dutch hospitality at his Hurley Road home. He was one of the organizers of the Republican party in Hurley. The personal column includes: Miss Annie DuBois will entertain the next "C. C. C. Soiree". . . . The Misses Suttie and Annie Smith have gone to Stone Ridge to visit friends. . . . Miss Lucie Patterson, one of the efficient corps of teachers at the Ulster Academy, is a humorous recitationist. . . . The Knickerbocker Society will be entertained Wednesday evening at the home of Mrs. Mary Lounsbury on Union Avenue. . . . William Lounsbury and John S. Bay have secured tickets for passage for Europe and will sail December 19.

Local Paragraphs. Timely local paragraphs, each with caption and by-line, fill out the second column. A sentimental poem, telling of the love affair of one "Sarah Jane," a cannibal, tops the column, and this is followed by a description of the Saturday night drunken orgies "under the Hill" on Union avenue. The writer next deplores the bad manners of sundry citizens at the performance of "The Mikado" Saturday night. It appears that many in the audience arose to go before the conclusion of the last act. . . . Peter Schoonmaker, a former Rondout man, escaped unhurt in the canal train collision on the new Brooklyn Bridge. . . . There were a total of 235 insane persons confined in various institutions. . . . The girls of the Mikado company staged a lively argument over the allocation of their rooms at a local hotel. . . . The new U. & D. roundhouse, rapidly nearing completion, is a dandy; there is a new 11,000-gallon water tank alongside the building.

Busy Port of Rondout. "Busy Port of Rondout" is the heading to more than half a column of creek, river and canal news notes. Fifty-five boats, laden with 7,200 tons of coal, reached tidewater on the canal Saturday night. . . . Sloops, schooners and barges are loading cement, plaster, sand and blue-stone at the docks. . . . A new dock is being built at Hewitt Boice's stone yard. . . . The two-masted brig L. W. Parker is loading a cargo of old U. & D. rails for the Tredgeford Iron Works at Richmond, Va. . . . The crowds to see the nightboats take their departure are growing smaller and smaller. . . . Capt. Abraham Schutt's barge is in the creek with a cargo of grain for Griffith & Kerr. . . . During the past week immense quantities of straw was seen floating around in the creek. The canalliers have emptied their beds, taken up their ticks and gone home for the winter. . . . A boatload of coal is being discharged at Abbey's dock for George B. Hibbard. The barge R. C. Taylor is unloading flour and feed for S. Abbey & Sons.

Other Items. There are numerous other interesting items of doings along the waterfront. The docks from Wilbur down creek apparently teemed with activity. The steam propeller "Lime Rock" was leaving Newark to take on 1,100 barrels of cement. . . . "Pool Ball" is the name of one D. & H. gondola. . . . Any number of canal mules and horses are now passing through the city en route to their winter farm homes. . . . "A Long Road and a Shady Walk" is the name of another tow-boat. Its driver terms the first three words very appropriate but the last four are a mockery, he says. And he ought to know. . . . The jig is up, as the man with St. Vitus dance

said, when a fell on his back and drew his last breath. The last boat on the canal has reached tidewater at Poughkeepsie, and the work of drawing off the water has engaged the attention of scores of men. Many of the coal laden barges will lay up at Weehawken for a time; others will remain in the company's slip at Rondout, until Spring. Thus has ended one of the dullest seasons since before the war. The boatmen are, in the main, low-spirited, and look forward to hard struggle with poverty this winter.

Sleeping Coal Gas. Again: Major Martin Snyder, well known Green street hotel proprietor and veteran of the Twentieth Regiment, together with his family had a narrow escape of death by sleeping gas from a stove Sunday morning. . . . The management of the Hudson River and N. Y. Central Railroad, it is understood, assumed control of the West Shore today. Local trainmen say they are glad they are now going to get their pay on time. The West Shore will be run on business principles. Saucy conductors, it is stated, will get their walking papers, at once. . . . Local roads are frozen and have a good, hard bottom of sleighing, the horsemen say, they delight in speeding their trotters on such a bottom. . . . Rapid Hose Company's fair, which closed Saturday night at Washington Hall, was an immense success. No one guessed the doll's name, which proved to be "Phoebe." Cornell House, No. 3, won the cane with 280 votes. It will be presented to their foreman, Lewis L. Patchen.

"Chandos Classics." Next, in the old paper, follows more ads.—Hayes & Wolven, furniture dealers at No. 8 Wall street; Forsyth & Wilson, opposite the court house, tell of their fine array of the "Chandos Classics" and other "magnificent gift books"; Ira B. Slight & Co., the "original one price clothiers," at 23 Union avenue, make mention of their stock of shirts, jackets and vests. . . . A schedule of the lecture course of 1886-1887, of the Kingston Y. M. C. A. is given. A series of readings, with readings, lectures, and so forth at Music Hall, the price for the course being \$1.50. . . . Also those who would like to take Saturday lessons of Signor Giuseppe Tamara, a leading metropolitan vocal teacher, can leave their addresses with Howard Osterhout or William H. Reiser.

Also those who would like to take Saturday lessons of Signor Giuseppe Tamara, a leading metropolitan vocal teacher, can leave their addresses with Howard Osterhout or William H. Reiser.

"Genuine Dutchman." Under the caption, "Genuine Dutchman," the old Freeman gives an account of the will of John M. Myer, a well-to-do town of Hurley resident who had died at the age of 84 years. Mr. Myer was fond of displaying old Dutch hospitality at his Hurley Road home. He was one of the organizers of the Republican party in Hurley. The personal column includes: Miss Annie DuBois will entertain the next "C. C. C. Soiree". . . . The Misses Suttie and Annie Smith have gone to Stone Ridge to visit friends. . . . Miss Lucie Patterson, one of the efficient corps of teachers at the Ulster Academy, is a humorous recitationist. . . . The Knickerbocker Society will be entertained Wednesday evening at the home of Mrs. Mary Lounsbury on Union Avenue. . . . William Lounsbury and John S. Bay have secured tickets for passage for Europe and will sail December 19.

Local Paragraphs. Timely local paragraphs, each with caption and by-line, fill out the second column. A sentimental poem, telling of the love affair of one "Sarah Jane," a cannibal, tops the column, and this is followed by a description of the Saturday night drunken orgies "under the Hill" on Union avenue. The writer next deplores the bad manners of sundry citizens at the performance of "The Mikado" Saturday night. It appears that many in the audience arose to go before the conclusion of the last act. . . . Peter Schoonmaker, a former Rondout man, escaped unhurt in the canal train collision on the new Brooklyn Bridge. . . . There were a total of 235 insane persons confined in various institutions. . . . The girls of the Mikado company staged a lively argument over the allocation of their rooms at a local hotel. . . . The new U. & D. roundhouse, rapidly nearing completion, is a dandy; there is a new 11,000-gallon water tank alongside the building.

Busy Port of Rondout. "Busy Port of Rondout" is the heading to more than half a column of creek, river and canal news notes. Fifty-five boats, laden with 7,200 tons of coal, reached tidewater on the canal Saturday night. . . . Sloops, schooners and barges are loading cement, plaster, sand and blue-stone at the docks. . . . A new dock is being built at Hewitt Boice's stone yard. . . . The two-masted brig L. W. Parker is loading a cargo of old U. & D. rails for the Tredgeford Iron Works at Richmond, Va. . . . The crowds to see the nightboats take their departure are growing smaller and smaller. . . . Capt. Abraham Schutt's barge is in the creek with a cargo of grain for Griffith & Kerr. . . . A boatload of coal is being discharged at Abbey's dock for George B. Hibbard. The barge R. C. Taylor is unloading flour and feed for S. Abbey & Sons.

Other Items. There are numerous other interesting items of doings along the waterfront. The docks from Wilbur down creek apparently teemed with activity. The steam propeller "Lime Rock" was leaving Newark to take on 1,100 barrels of cement. . . . "Pool Ball" is the name of one D. & H. gondola. . . . Any number of canal mules and horses are now passing through the city en route to their winter farm homes. . . . "A Long Road and a Shady Walk" is the name of another tow-boat. Its driver terms the first three words very appropriate but the last four are a mockery, he says. And he ought to know. . . . The jig is up, as the man with St. Vitus dance

said, when a fell on his back and drew his last breath. The last boat on the canal has reached tidewater at Poughkeepsie, and the work of drawing off the water has engaged the attention of scores of men. Many of the coal laden barges will lay up at Weehawken for a time; others will remain in the company's slip at Rondout, until Spring. Thus has ended one of the dullest seasons since before the war. The boatmen are, in the main, low-spirited, and look forward to hard struggle with poverty this winter.

Drastic Changes in Tax-Revision Bill

As recently forecast in this column, the Senate Finance Committee, under the leadership of Senator Harrison, is making drastic changes in the House tax-revision bill. Yesterday the committee, by a vote of 17 to 4, removed every trace of the much-opposed corporation profit tax principle from the bill. Then the committee voted in favor of a flat 18 per cent corporation tax and revised sharply the capital gains and loss tax formula. The provision giving benefits to corporations with a net income of less than \$25,000 was retained. The war profits tax amendment and the \$12,000,000 processing tax on long-term bonds, where assets are held more than 18 months, was limited to 10 per cent, with additional "cushions" for capital losses.

Stocks opened off yesterday morning, with industrials showing an average loss of over a point the first hour, but gained nearly as much during the day, with the Senate Finance Committee action a factor. They closed below the day's highs, at 114.64 in the Dow-Jones averages, a net gain for the day of 0.26 points. Falls showed an advance of 0.24 point, to 21.99; utilities were up slightly, to 17.31. With the exception of public utilities corporate bonds were lower; governments were steady.

Increased production is reported in shoe factories in the St. Louis district, as belated spring orders come in. The International Shoe Co., has increased output to about 150,000 pairs a day, 75 to 80 per cent of capacity and the Brown Shoe Co. is making 50,000 to 55,000 pairs daily, working at about 75 per cent of capacity.

Postal Telegraph had a loss of \$2,200,597 last year compared with a loss of \$686,672 in 1936. At the same time it is reported that the company has capitulated to wage demands and has granted \$600,000 annual wage increase to 15,000 employees; affects employees earning \$160 a month or less.

Glenn L. Martin had net earnings of \$1,144,838 in 1937 compared with \$732,632 in 1936. Omnibus Corp. earned \$1,654,808, equal to \$1.74 on common stock, vs. \$510,000, or \$7.11 on preferred stock the previous year. Timken Detroit Axle had net of \$1,112,247, vs. \$3,160,202. Twentieth Century-Fox Films earned \$8,617,114, compared with \$7,722,955 in 1936.

Sales of A. & P. for year ended March 1 are estimated at around \$884,000,000 compared with \$907,370,991 in year ended February 28, 1937. Net is around \$9,000,000 vs. \$15,084,622.

President Wagner of Underwood Elliott Fisher said that the recession in sales appears to have been halted in March; said first quarter's earnings would be sharply under those of a year ago.

As reports of the first 16 roads showed net operating income for February to be over 80 per cent under that of a year ago, rail executives and labor deferred discussion on possible wage reductions pending outcome of action on ICC recommendations to aid carriers forwarded to the President yesterday.

Pennsylvania had a deficit after charges of \$2,900,000 in February. President Cleveland said. Chairman Holden said that Southern Pacific's February gross was about \$3,000,000 under 1937 period.

Jack Sheriff Missing

The sheriff's office and the State Troopers have been asked to locate Jack Marshall, 29, of High Falls, who has been missing from home since Thursday morning. The last seen of him was when he drove into the Zwick gas station at High Falls and borrowed a gallon of gas for his old blue Model A Ford car. At that time he wore a brown sweater and gray pants and white sneakers over oxford shoes. He is 5 feet 9 inches tall and weighs about 150 pounds. After pouring the gallon of gas in the tank on his Ford car he drove away and that was the last heard of him.

HOME BUREAU

Kingston Unit

A meeting of Kingston Unit of the Home Bureau was held on Tuesday afternoon when a class of 12 under the leadership of Mrs. R. Kleine, of Ulster Park, began a course in block printing.

To give a working knowledge of the craft in the few lessons to be given, Mrs. Kleine covered as much ground as possible, explaining the selection of design and material, the tools necessary for making the blocks, and the application of the design to the article to be made. The tools may be specialized or the work may be done with things at hand.

A variety of blocks and finished articles, such as pillow tops, towel borders and wall hanging, mostly the work of Mrs. Kleine herself, were shown to give the class an idea of what really lovely things can be made at a minimum of time and expense by one who learns the technique.

Three more lessons will follow in April. A short business session was also held, with Mrs. M. Bertrand presiding, at which the annual election of officers was held. The staff for the year 1938-39 will be as follows: Mrs. Raphael Kleine, chairman; Mrs. Clyde Hutton, vice chairman; Mrs. Harry Yale, treasurer; Mrs. Ellen Tillson, recording secretary; Mrs. John Harris, corresponding secretary.

Those present at the meeting were: Mrs. Edward Pratt, Mrs. E. T. Vernon, Mrs. Clyde Hutton, Mrs. Harry Yale, Mrs. William Buddenhagen, Mrs. R. Kleine, Mrs. John Harris, Mrs. Rose Kelley, Mrs. George Quinette, Mrs. Margaret Bertrand, Mrs. Stanley Winne, Mrs. Ellen Tillson and Mrs. Wickling.

13,000,000 Trees

Albany, N. Y., March 23 (AP)—New York, pioneer in reforestation work, will set out 13,000,000 trees on 15,000 acres throughout the state in an intensive spring planting program to be launched April 15. Envoles from the Civilian Conservation Corps will supply the labor.

Sails of Windmills Gave

Messages to Smugglers

The sails of a windmill, according to the way they are set, serve as a semaphore, and have a message for those who can read their signs, according to a writer in the Montreal Herald.

In the days of smuggling, millers whose mills were near the coast were sometimes in league with the smugglers who could conveniently store their kegs of smuggled brandy, their tobacco, their silks among the sacks of flour at the mills. The miller could always give them a signal as to when there was danger in the shape of an excise officer prowling about, or when the coast was clear.

The danger signal was given by setting the sails in the position of a St. George's cross (the upright cross). "All clear" was signalled by placing the sails to form a St. Andrew's cross—like an X.

The upright position is a sign of mourning at the mill, or of any other trouble. It may also mean, if adopted for a few minutes only, that the miller is about to grind. When you find a mill's sails set as a St. Andrew's cross, you know that the miller has finished his work, or is taking a holiday. The sails of old mills which are no longer working are always found in this position.

Egg-Laying Devices in Insects

Ingenuous and protective egg-laying devices in insects result from the driving force of organic life, retention of the species by propagation. The young are usually born after the mother has died or disappeared. But she provides for the first meal of the insect when she lays its egg, protects the egg itself from weather, water and other insects. The female of the foliage grasshopper, of the family Decticinae, viviparous, has a long sword-shaped laying tube by which it pierces the ground to leave its eggs. Many grasshoppers sheath their eggs in a frothy mass which comes from the intestines and hardens in the air. Sometimes the frothy egg packet is attached to a stone; occasionally it is carefully placed in broken-off raspberry stalks in such a manner that the froth has the appearance of the pith of the stalk.

Thanksgiving in February

Imagine Thanksgiving day in February. In South Carolina it was an actual observance almost a century and a quarter ago, for a preserved copy of the famous pioneer newspaper, the Pendleton Messenger, reveals that once the state observed the feast of Thanksgiving on the first Thursday in February. In the issue of February 3, 1819, this journal carried a proclamation given under the hand of Gov. John Geddes and the seal of the state, that reserved the day in early February to acknowledge the goodness of God.

Stars Brighter Than Sun

Many stars are hundreds and even thousands of times brighter than our sun. Sirius, Capella, Arcturus, Betelgeuse, Deneb, Canopus, Antares and Rigel are a few of the brighter ones. The last four are about 14,000 times as luminous as the sun. The largest known star, Antares, in the constellation Scorpio, has a diameter at least 300,000 miles, which is 430 times that of the sun. Arcturus has a diameter about 27 times that of the sun, and is about 100 times brighter.

North and south Ireland may disagree over politics, but they have one thing in common—reforestation. Both have extensive nurseries, and both have pursued so vigorously a policy of planting every unused acre that today nearly 50,000,000 trees are in growth.

Claims for lump-sum benefits under the Social Security Act are being certified at a rate of almost a thousand per working day, according to a recent announcement of the Social Security Board. Lump-sum payments are made under the Social Security Act to qualified workers who are now reaching the age of 65 and to the estates of survivors of workers who die before 65. The payments amount to 3 1/2 per cent of the worker's total wages while he participated in the Federal old-age insurance program.

About The Folks

Lawyer McDonald DeWitt of New York City is greeting old friends in Kingston today.

Mrs. Florence Putvin, of 7 East St. James street, and Mrs. Anna Kubick, of 28 Adams street, have returned from New York where they attended the annual addressers convention held in the Hotel Pennsylvania.

Sergeant E. J. Hulise of the New York State Police, stationed at Highland, suffered an attack of facial paralysis several days ago. On Tuesday he went to Albany Hospital for treatment and today he was recovering as responding very favorably.

Mortimer H. Block, of Accord, has returned home after spending several days in New York city with his mother, Mrs. Florence Block. While there, Mr. Block attended the 59th wedding anniversary of his uncle and aunt, Mr. and Mrs. David Hartman of the Bronx.

Bishop Cook Dies
Baltimore, March 25 (AP)—Death early today ended the long and active career of the Rt. Rev. Philip Cook, D.D., Bishop of the Protestant Episcopal Diocese of Delaware and former president of the National Council of the Church.

THE JOINERS

News of interest to members of fraternal societies.

The regular meeting of Clinton Chapter, No. 445, O. E. S., will be held at Masonic Hall, Wall street, this evening. At this time the chapter will celebrate the anniversary of its organization with a birthday party. Members who joined the chapter during the months of January, February and March have been invited as special guests. A social hour with refreshments will follow the business session. All members of the Eastern Star and Masonic fraternities are invited to attend.

Proposes Committee
Washington, March 25 (AP)—Representative Barton (R., N. Y.) proposed today that Congress appoint a ten-man committee to ferret out useless, obsolete and bad laws. He said 208,587 bills had been introduced in the last ten Congresses, 11,132 had become law, and only 140 had been repealed.

Recalls Name
East View, N. Y., March 25 (AP)—After a good night's sleep and under the gentle questioning of two psychiatrists, Grassland Hospital's attractive amnesia victim today recalled her name. She told authorities she is Marie Horvath and comes from the Bushwick section of Brooklyn.

CHILLY TODAY AINT IT? (NAH -- IT'S BALMY)

THIS SPRING

When it's warm and sunny one day and cold and damp the next

GIVE GAS THE JOB

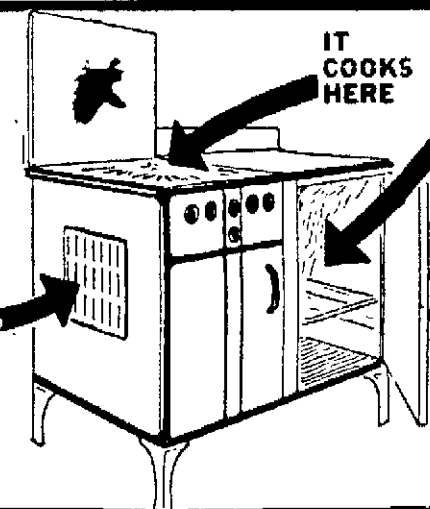

You know how it has been other years. One day the house is so hot you can't live in it, so you open all the windows and forget the fires. The next day there's a cold wave, and then you can't forget the fires—you have to build 'em all over again!

HERE ARE THREE ANSWERS TO YOUR PROBLEM:

Number One

for **KITCHEN HEATING**

THE HEATING GAS RANGE

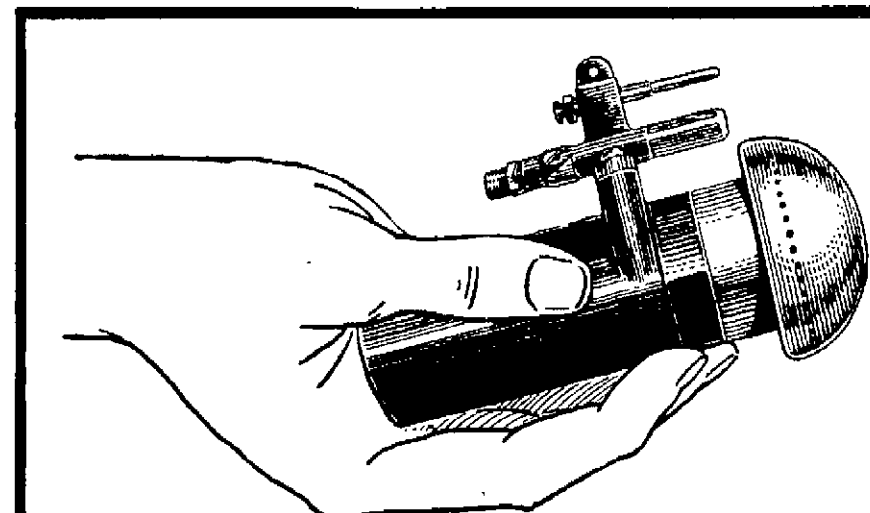

THE HEATING GAS RANGE—

for cooking and kitchen heating. Equipped with a built-in gas heater which will keep your kitchen comfortable no matter what the weather. You may buy a HEATING GAS RANGE for two nickels a day on the Daily Savings Plan. There is no down payment and Gas Range Dealers will give you a liberal allowance for your old range.

Number Two

for **HOUSE HEATING**

\$1.00 a month, plus a small installation charge, will pay for the use of this equipment for AUTOMATIC GAS HOUSE HEATING. It installs in your present furnace—warm air, hot water or steam—and then regardless of outside weather conditions, and without attention from you, the burner will maintain an even healthful temperature within your home.

Number Three

Fill in and mail this coupon . . . It will bring you all the story.

Spring Music
If you like opera, that's your dish. Here's hoping that you get your wish; But as for me, now that it's spring, I'll listen while the bullfrogs sing.

He approached the judge with all kinds of politeness. He wanted a favor done. The judge asked what it was:
Man—Your Honor, I'd like to get out of jury duty.
Judge—Why?
Man—I can only hear with one ear.
Judge (smiling and patting him on the back)—It's all right. We only hear one side of the case at the time.

Read It Or Not—
A \$4 turkey recently flew through a \$70 plate glass window in Grandfield Oklahoma.

Host—Those are my grandmother's ashes over there.
Guest—Oh, so the poor old soul has passed on.
Host—No. She is just too lazy to look for an ash tray.

Then there is the yarn about the hill-billy who was so dumb he didn't know the difference between a squirrel and a hair brush. The only way he could tell which was which was to place them both under a tree and see which one climbed it.

An inspector was examining a class in geography, and addressing a small boy, he asked:
Inspector—Now, sonny, would it be possible for your father to walk around the earth?
Small Boy—No, sir!
Inspector—Why not?
Small Boy—Because he fell down and hurt his leg yesterday.

Fable: Once a little girl grew and grew till she was twenty-three, and her parents realized that she was grown up.

If you are a golfer, don't overwork your golf vocabulary:
Dear Old Aunt—Did you have a good time, Gilbert?

HOLLYWOOD Sights and Sounds

By ROBBIN COONS
HOLLYWOOD—For some time now this department has been a rather grudging admirer of the little First Lady of Hollywood. The stigma that attaches to all the cinema's precocious kiddies stuck cloyingly upon her pretty presence, obscuring the vision, and making us more or less proof against her wiles.

This is merely preamble to our present earnest waving of the flag of truth. After seeing "Rebecca of Sunnybrook Farm" we are ready and eager to join in trumpeting the manifold charms of Shirley Temple, a gesture of surrender which admittedly is entirely unnecessary—to Miss Temple—in view of the young person's top spot at the box-office through those three years.

Temple Personality
As "Rebecca," Shirley starts the picture with curls and cuteness unchanged. There is little to indicate that, before long, she will emerge, partly by virtue of a new coiffure—as a veritable "new Shirley Temple."

But she does, and it's amazing. By the time she sits down at the piano and starts her vocal reminiscing, our defenses were already weakened. Sometime during this sequence, our capitulation became complete. Miss Temple may not be the greatest actress nor the greatest singer, but she is a way of stepping from that screen and putting her personality intimately into the hardest of hearts. And it's a very nice personality. Not forward, certainly not shy, but properly demure and at the same time twinkling, wise and winning.

A Different 'Rebecca'
As for the picture, it isn't "Rebecca of Sunnybrook Farm" as you may remember it but it's plenty bright and pleasant. In the film Rebecca is a talented child who goes to live at Sunnybrook Farm after failing to win a place on the air. And Sunnybrook Farm becomes a broadcasting center, and the handsome agent—Randolph Scott—falls in love with Rebecca's cousin—Gloria Stuart—and all in all Kate Douglas Wiggin, the writer he based, wouldn't recognize it. But what does that matter, anyway?

Phyllis Brooks, one of the newer blondes, climbs several steps higher in her role in this, and Scott, Miss Stuart, Helen Westley, Jack Haley, Slim Summerville and William Demarest and Ruth Gillette all contribute effectively. Bill Robinson is there, tapping, although not enough. Little Mary McCarty, as a terrible child singer, does her part well, and Evelyn Parker, as the steel-band organist who never gets to play, has a hilarious bit.

of a ten-spot is viewed with concern unless there is a signed note with plenty of responsible endorser.

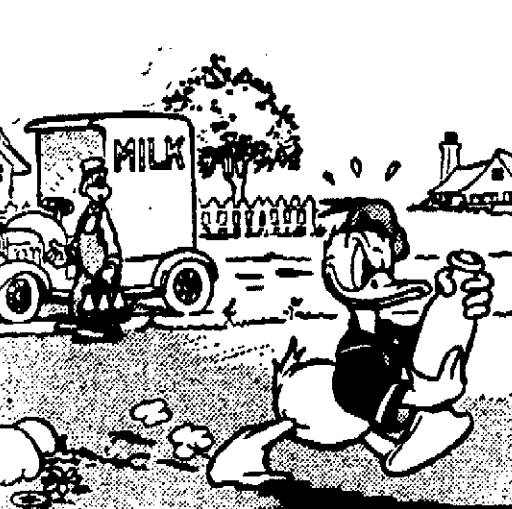

Teacher (to her class in English)—Now, can any one give me a word ending in "ous," meaning full of, as "dangerous," full of danger?

Small boy (raising his hand)—I can, teacher.
Teacher—Well, what is your word?
Small Boy—Plous, full of pie.

One of our grocerymen had a lot of explaining to do this week. A lady walked into his store and asked for some spuds. The grocerymen handed her a package of cigarettes. The lady happened to be a devout W. C. T. U. member and the poor grocerymen is not sure yet whether his explanation was all right or whether he lost a customer.

At The Theatres

BROADWAY: "I Met My Love Again." Childhood sweethearts and schoolyard lovers drift apart in the romantic feature at the Broadway and the girl marries for money and discovers her husband to be a bum and the boy becomes a teacher with a lump in his heart and a feeling that he has been done an injustice. Time pushes them farther apart until one day they meet again and the old love flares anew. How the boy and the girl find their late happiness together is the most appealing part of the whole story. The cast stars Henry Fonda and Joan Bennett and features Alan Marshall.

KINGSTON: "A Slight Case of Murder." Damon Runyon's famed ability at daffy character creation is demonstrated with great clarity in the show at the Kingston for Mr. Runyon is the author of the show and his magic touch is noticeable everywhere. It's the story of a racketeer whose rackets have been drained dry by repeal and the G-men and his methods of continuing to exist are something to witness. Edward G. Robinson, in the starring role, has his best part in many a year and he makes the most of it while Jane Bryan rises to noble heights in a featured role. Here is excitement, gusty humor and brilliant dialogue with a surprise ending thrown in for good measure.

Orpheum: "Life of the Party" and "Purple Vigilantes." Joe Penner of the radio is surrounded by a large cast of accessory comedians and beautiful girls in the musical comedy attraction at the Orpheum and the show is an average adventure in song and humor. "Purple Vigilantes" is the associate feature on the bill and it stars the Three Mesquiteers in a melodrama of the plains.

Broadway: "Mad About Music." Universal's Deanna Durbin, the little lady whose skyrocket rise to stardom has been an unbroken chain of swell pictures, continues to please her film audience in this exceptionally brilliant production which gives Miss Durbin a chance to sing beautifully, to act with growing skill and to be surrounded by a talented cast of featured players. It's a story of a small girl in a boarding school who finds it necessary to produce a father and she does that very thing at the expense of a wealthy and confirmed bachelor. This plot opens up all manner of possibilities and the Hollywood continuity men have given the story a fast paced and enjoyable treatment. Miss Durbin's songs are catchy and tuneful and the work of Herbert Marshall and Gail Patrick is above reproach. Here is a picture for old and young to enjoy thoroughly.

NAVY WEIGHS USE OF 18-INCH GUNS

Efficiency of Huge Weapon Being Investigated.

Washington. — Speculation has been revived here as to whether the United States eventually may equip its fighting ships with 18-inch guns. This type of gun has never been mounted on any battleships of this nation, and navy officials insist the weapon exists only on paper. Despite the strict secrecy that surrounds all matters of ordnance, however, it is known that research concerning the efficiency of the 18-inch gun is being constantly carried on.

It is admitted that a weapon of this type would possess enormous destructive power, but many naval officials doubt whether its use would

be worth the sacrifices that would have to be made along other lines.

Guns Now Weigh 126 Tons.

It is pointed out, for example, that the largest gun now used in the United States fleet, the 16-inch, 50-caliber weapon, weighs 126 tons. The 14-inch, 45-caliber gun weighs 105 tons. Each projectile or shell used in the 18-inch guns weighs 21,000 pounds.

The next smaller size, the 14-inch, 50-caliber gun, weighs 81 tons, while its projectiles weigh 14,000 pounds each. Thus it is pointed out that because of the great amount that an 18-inch gun would weigh, fewer of these weapons and their projectiles could be carried. In addition, smaller, more "flexible" weapons would have to be sacrificed.

The present 16-inch, 45-caliber guns, such as are used on the battleships Colorado, West Virginia and Maryland, can fire their projectiles a distance of about 15 miles when the guns are at an elevation of 30 degrees—the elevation at which the longest distance can be obtained.

At the same elevation the 14-inch, 50-caliber guns have a range of more than 15 miles. Guns of this type are used aboard the battleships California and Tennessee.

Smaller Guns on Four Ships. The battleships Arizona, Pennsylvania, Oklahoma and Nevada use 14-inch guns of 45 caliber. A maximum range of 21,000 yards can be obtained at a 15-degree elevation.

The penetration power of an 18-inch gun undoubtedly would be higher than that of any gun now in use. The 14-inch, 45-caliber gun alone is said to be capable of piercing 18 inches of armor plate at a distance of 9,000 yards.

In addition to the considerable extra weight that an 18-inch gun would involve, the turret upon which the gun is mounted also would have to be heavier and stronger to absorb the terrific recoil such a gun would have.

In the 14 years from 1923 to 1936, inclusive, the length of trains increased 16 per cent, but the frequency of train accidents per million train-miles decreased 59 per cent, and the frequency of casualties to road-freight-train and engine-service employees decreased 70 per cent.

The song "Dixie" was composed in 1839 and used by the Confederates as a war song.

Elks Elect Slate Named Recently

At the regular meeting of Kingston Lodge, No. 550, B. P. O. E., last evening the slate of officers nominated at a recent meeting was unanimously adopted and will be installed on the evening of Thursday, April 14, when Supreme Court Justice James T. Hallinan of Queens, past grand lodge exalted ruler, will be present as installing officer and one of the speakers of the evening.

There will be entertainment that evening and refreshments will be served. Delegations from the various lodges of the district will be present to witness the installation.

Wars Easily Settled in

Days of King Louis XI

History proves that even in centuries gone by they had sensible ideas about settling wars, and an historian discovered how King Louis XI, in 1453, put an end to the Hundred Years' war.

He asked the king of England to come over for a talk at Amiens, promising that the royal visitor and his entourage would be treated as honored guests. And they were, according to a writer in Pearson's London Weekly.

As soon as the English arrived (the king took the precaution of bringing his own army with him) all were invited to a huge open-air picnic. Three hundred carts of wine drove up and the tables were lavishly piled with cooked meats. By the time the party had been going on for a few days no one could see the least sense in continuing the war.

"Thanks to these proceedings," the ancient chronicler of the Amiens conference duly records, "negotiations were rendered easy and speedy." A seven years' truce was signed, and the armies went home, to fight no more.

The spirit of peace, in fact, was so much in the air that the English king obtained a large sum to cover his expenses entailed in attending the conference.

General Custer's Sleigh Will Be Museum Piece

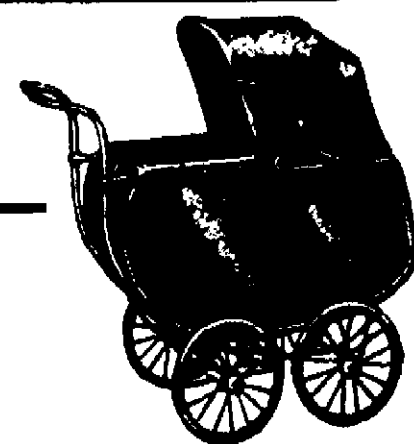

Fort Leavenworth, Kan.—Historical mementos of transportation, now the property of the army, will be turned over to a museum here to depict the growth of the Middle West.

A collection of coaches, prairie schooners and other relics dating back to pre-Civil War days will be housed in one of the post's oldest buildings—the red brick structure which served as the sutler's store, forerunner of the post exchange.

Lieut. Col. F. Gilbreath, executive officer of the command and general staff school, who has devoted much time to classifying and studying the collection, conceived the idea which was approved by Gen. Charles M. Bundel, post commandant. Plans now await only formal approval by the War department.

Included in the collection will be a carriage once used by President Lincoln, sleighs which belonged to Gen. George A. Custer and Gen. Nelson A. Miles, and a carriage in which President Grant once rode.

Many historians rank the invention of the hand-mill for grinding grain as the second greatest event in the march of civilization. The discovery of fire is ranked first.

The public is invited.

St. John's Auxiliary Meeting

The Women's Auxiliary of St. John's Episcopal Church will hold its regular luncheon sewing meeting next Tuesday, but instead, the study class will be held at the home of Mrs. L. Lewis Howe, 23 Emerson street, with the Rev. William A. Grier, rector of the church of the Holy Cross as the speaker. The meeting will be held at 2:30 o'clock and a social hour will follow. The sewing meetings will be resumed the following week.

Married Women See Play

Thursday afternoon 75 members of the Married Women's Club and their guests were entertained with "The Happy Journey to Trenton and Camden" by Thornton Wilder, presented by Mrs. Harry B. Walker, Mrs. Charles Arnold, Mrs. S. Maxwell Taylor, Mrs. Charles Terwilliger, and Mrs. Myron Teller. No scenery was used in the play and the audience had to use its imagination, which added to the interest. The characterizations of a family taking a motor trip in a car which is not often ridden in, were particularly good, and the humorous costumes and makeup created an amusing atmosphere. Following the play, afternoon tea was served with Mrs. Roy Brower and Mrs. William Reily, hostesses.

Federation Open House

As part of the activities of the Apple Blossom Festival the Federation of Women's Clubs will hold an open house on the afternoons of Friday, Saturday and Sunday, May 6, 7 and 8, at the home of Mrs. Clara Norton Reed, 43 Crown street. The house, which was built in the 1790s, will once again echo to the swish of Colonial gowns as members of the Federation, dressed in the period costumes, will escort interested guests through the house, explaining the unusual points of architecture and relating its history. Mrs. Reed's lovely old home, which is known as the Jansen home, is one of the best examples of Colonial architecture in the city since only two minor alterations have been made in the structure since its erection.

Plans Formulated For Reception to Dr. and Mrs. Seeley

A meeting of representatives of the various organizations of the Fair Street Reformed Church met at the church Thursday night and formulated definite plans for the reception to be given the Rev. Dr. and Mrs. Frank B. Seeley to mark the 40 anniversary of Dr. Seeley's pastorate at the Fair Street Church.

Dr. Seeley preached his first sermon at the church, as its pastor, on April 5, 1898, and the reception in honor of the 40th anniversary of that event will be held in the church parlors on Thursday night, March 31. The committee is sending invitations to all members of the congregation to be present on that auspicious occasion.

The anniversary will be further emphasized at the church service on Sunday, April 3, when the Rev. Dr. Theodor F. Bayles, of New Brunswick Theological Seminary, a long time close friend of Dr. Seeley, will preach at the morning service. Presiding at the service will be the Rev. Ernest Palen, of the Middle Collegiate Church, New York city. Dr. Palen is a former Kingston boy and one time member of the Fair Street Church.

WHATEVER YOUR PROBLEM MAY BE BUDGETING HELPS YOU SOLVE IT

"If I only had five dollars more a week! Or ten! Or twenty!" Everybody who has a problem wishes that—and who hasn't a problem these days?

The answer is—a budget plan. Amazing how it can dredge up the extra dollars.

What can a budget plan do for you if you're already squeezing nickels? You'll never know until you look at all your expenditures with the budgeter's eye.

Perhaps you find no one item starting out of line. You pay about 26 cents of income for rent, 22 per cent for food, 17 per cent for clothes—but each of these items is a little larger than it should be.

Attack the rent from the carfare angle, for carfare should be considered with rent. Is office or school near enough to walk one way? What stores and amusements are within walking distance?

Look at each item on your food

bill. Goodness, you spend one-fourth of the total on meat—when one-sixth is about right. Have just as healthful a menu by buying cheaper cuts with high nutritive value, by using more cheese and egg dishes.

Your clothes bill will shrink if you buy spring accessories in a color that will go with summer things too.

And what a leak household operating expenses can be. Gadgets used once in 2 months and hardly needed then are costly mistakes.

In our 40-page booklet, "HOW TO BUDGET YOUR INCOME," are simple, practical, real-life budget plans you can easily adapt to your own problems. Ruled pages for keeping your budget.
